

The formats below will assign CCAs using postal codes or Enumeration Areas, with the appropriate format file, either as 72 areas or 75 areas.

*** NOTE: These formats were developed in 2003 and are no longer the current formats. New formats, developed in 2012, are available. See the Community Centre Areas (CCAs) concept for the new formats.

Winnipeg Community Centre Areas (CCAs) - 2003

72 areas

- wpg_ccf (postal code to CCA)
- wpg_ccl (Labels for CCA)
- wea_ccf (enumeration area to CCA)

75 areas

- wpg75f (postal code to CCA)
- wpg75l (Labels for CCA)

```
data file ;
set file ;
** Define community centre areas ;
cca = put(postal,$wpg75f.) ;
```

* If the Community area is missing and Winnipeg is defined
you may want to remove this group. ;

```
** if cca=' ' then delete ;
end ;
```

```
format cca $wpg75l. ;
run;
```
