Rural (0) and Urban (1) Income Quintiles for Manitoba – 1979 to 2021

** NOTE:

The following three tables for 2008 - 2010 represent values for income quintiles that were calculated using 2006 Census data and reflect a change in methodology where newly identified CFS (Child and Family Services) postal code data were moved to the “Not Found” income quintile category. There are specific income quintile formats based on the 2006 Census data available for this situation.

NOTES:

The 2019 and 2020 Income Quintile - temporary tables, based on the 2016 Census data, are preserved in this document because they were used in recent research projects. There are now two additional tables for 2019 and 2020 that are based on the 2021 Census data.

The 2021 Income Quintile Table is based on the 2021 Census data and the most recent Postal Code Conversion File (PCCF) and Population file that are available.

The 2022 Income Quintile table will be developed when the most recent Postal Code Conversion File (PCCF) and Population file become available.
