## Rural (0) and Urban (1) Income Quintiles for Manitoba – 1979 to 2024

**\*\* NOTE:**

The following three tables for 2008 - 2010 represent values for income quintiles that were calculated using 2006 Census data and reflect a change in methodology where newly identified CFS (Child and Family Services) postal code data were moved to the “Not Found” income quintile category. There are specific income quintile formats based on the 2006 Census data available for this situation.

**Rural (0) and Urban (1) Income Quintiles for Manitoba – 1979 to 2024**

**NOTE:**

There are two sets of tables for 2019 and 2020 Income Quintiles, one set based on the 2016 Census data (above) and one set based on the 2021 Census data (below). The 2019 and 2020 tables based on 2016 Census data are preserved in this document because they were used in some research projects. Projects going forward should use the two tables based on 2021 Census data.

The 2021 and 2022 Income Quintiles Tables are based on the 2021 Census data and the most recent Postal Code Conversion File (PCCF) and Population files that are available.
