Community Resource Indicators: Rate of Family Services Programs for Low-Income Residents, by Winnipeg SES Group

These graphs show a broad overview of the rate of Family Services programs offered in each Winnipeg NC. Family Services programs were obtained from the Winnipeg Child and Family Services Resource List and include programs such as anger management, children and teen support groups, clothing exchanges, community kitchens, moms/dads/womens/mens groups, parent-child programs, parenting programs, recreation for children and youth, and youth drop-ins.

Although the Low SES neighbourhoods (shown here in red) have some of the highest numbers of these programs, when we look at this as rate per residents in the lowest income quintile, these neighbourhoods actually have the lowest rate. The Middle SES NCs (shown in light green here) as a group have the highest rate of family services programs per 1000 residents in the lowest income quintile. Because of the larger low income population, the Low SES areas would need a much larger number of programs than they have now to be able to reach the level of programs per low income residents in the Middle SES areas.

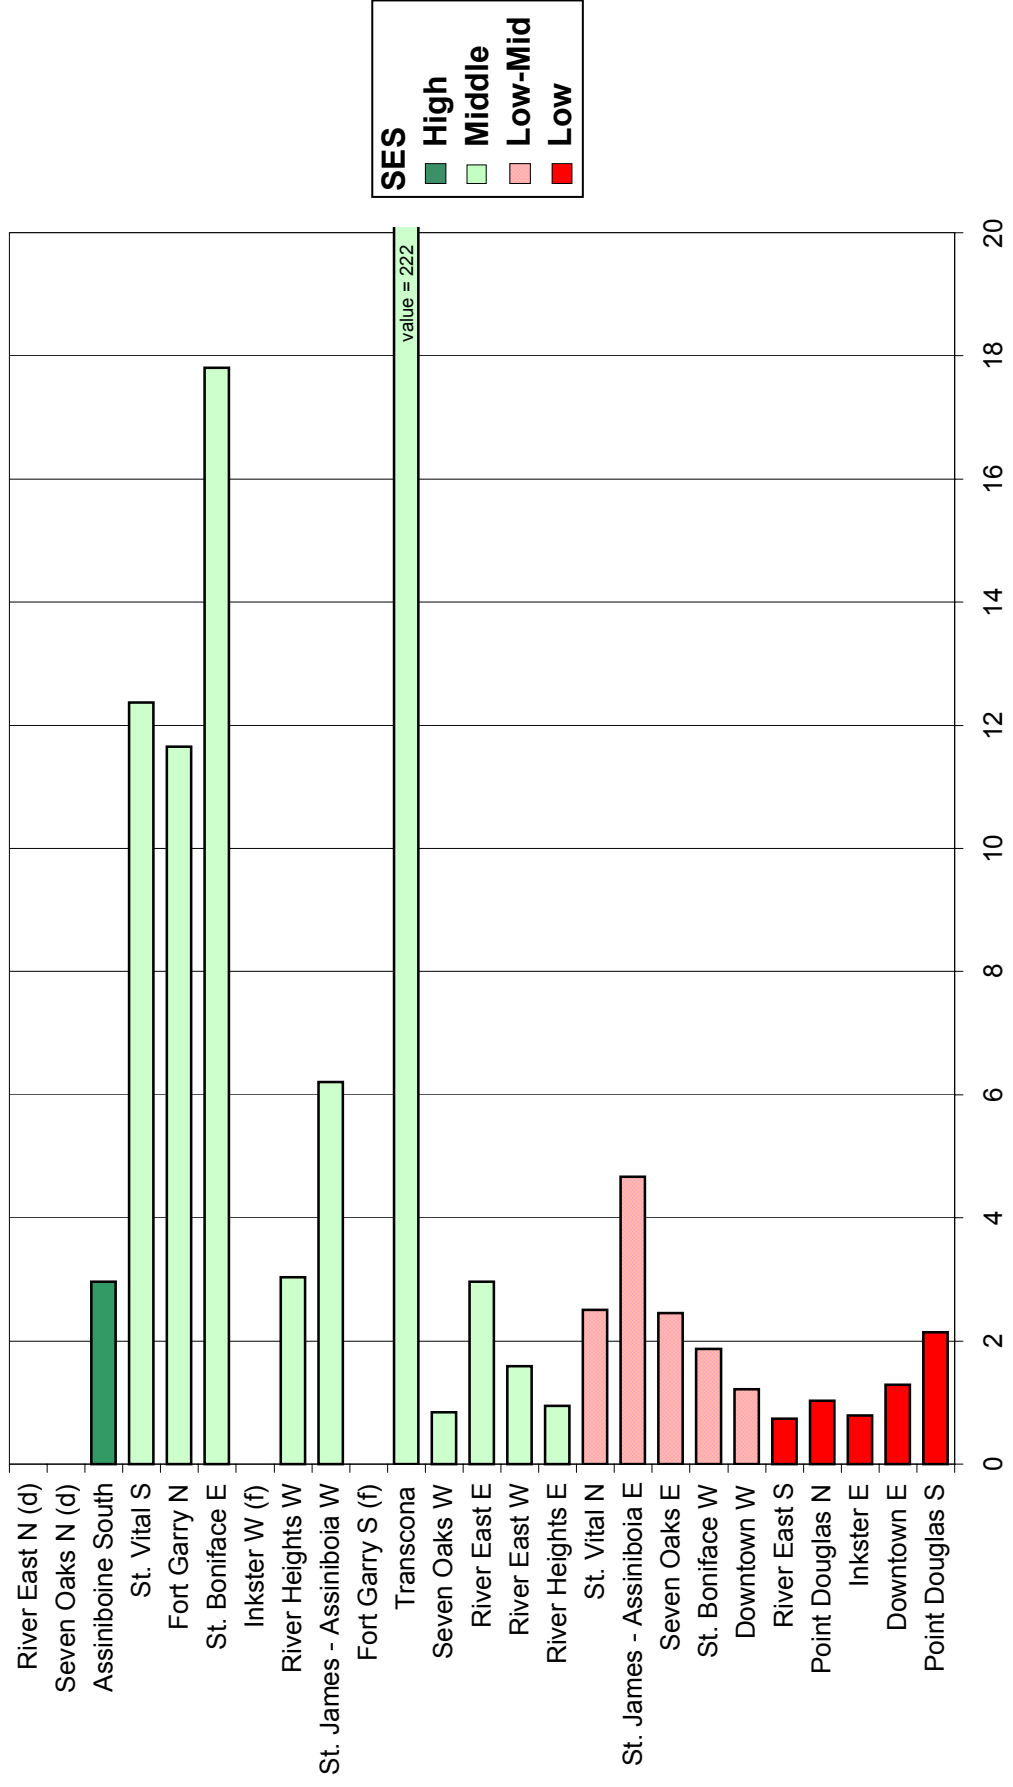

Rate of Family Services Programs for All Residents, by Winnipeg NC, 2000

'd' indicates NCs for which data was not collected

'f' indicates NCs that have no Family Services programs

**Rate of Family Services Programs for Residents in the Lowest Income Quintile,
by Winnipeg NC, 2000**

'd' indicates NCs for which data was not collected

'f' indicates NCs that have no Family Services programs

These definitions can be found in the Child Health Atlas Glossary:
