Community Resource Indicators: Rate of Recreation Programs for Children Aged 0-17 Years, by Winnipeg NC

This graph shows the rate of recreation programs offered for children aged 0-17 years. Variation is evident across the neighbourhoods, and when this graph is compared to the graph of all types of programs, it becomes evident that the vast majority of children's program fall into the recreation category. Recreation programs for the purpose of this study included physical activity, creative arts, learning, preschool/child play, and community youth programs, as well as one-day events.

Rate of Recreation Programs for Children Aged 0-17 Years, by Winnipeg NC, 2000

'd' indicates NCs for which data was not collected.

These definitions can be found in the Child Health Atlas Glossary:
