

Figure A.3.58: Breastfeeding Initiation Rates for Ages 20-29 Years by RHA

Crude rates per 1,000 women

'1' indicates area's rate was statistically different from Manitoba average in first time period

'2' indicates area's rate was statistically different from Manitoba average in second time period

't' indicates change over time was statistically significant for that area

's' indicates data suppressed due to small numbers
